

PORTUGALIA CORK

Distributed by:

FASHIONABLE

Worldwide brands (Nike, Louboutin, Mercedes, and others) are using cork in their products.

BIODEGRADABLE

Cork fabrics are biodegradable and produced from renewable resources.

WATERPROOF

Cork has waterproof properties making it the perfect material for apparel accessories and upholstery.

REDUCE GREENHOUSE EFFECT

It is estimated that every year cork oak forests retain up to 14 million tons of CO2.

WARM AND SOFT TOUCH

Cork has a unique texture and touch that is warm, pleasant, and luxurious.

VEGAN

Harvesting the cork helps increase the tree's lifetime expectancy and the natural ecosystems where trees grow.

HYPOALLERGENIC

Cork fabric is anti-static and hypoallergenic qualities allow it to be in safe contact with your skin.

EUROPEAN ORIGIN

Portugal is home to the best cork worldwide (due to its climate which is a key feature to obtain high-quality cork). All our fabrics are made with cork from Portuguese origin.

Our Cork Leathers are suitable to be used in a wide range of industries such as Residential Contract and Hospitality Upholstery, Commercial Wall Covering, Acoustical Applications, Women's and Men's Accessories, Ready to Wear, Footwear, Transportation Interiors, Case Goods, Cabinetry etc. With our substantial R&D investment we offer the highest quality and the largest range of cork fabrics in the market (over 1000 references available).

Our custom department offers the possibility to develop and produce, exclusive designs, colors, printings, embossing, and other specialty fabrics. Eco-friendly, ecological and sustainable, our fabrics are Vegan certified by PETA for all industry applications.

Characteristics: All our cork is 100% Portuguese origin, Warm to the touch, natural, eco-friendly and vegan, lightweight and nontoxic, inherently fire resistant, they do not release any dangerous VOC's. Recyclable and biodegradable, inherently water-proof. Cork forests help to reduce the greenhouse gasses and the energy used in production is very low.

Technical specifications

General Specifications

Composition: 100% Cork Surface/ Backing 30% Cotton, 70% Polyester

Weight: 420 (+/- 40) g/m²

Thickness: 0.90 (+/- 0.5) mm

Width: 1400 (+/-50) mm Length: 50 (+/- 5) m

Performance

Abrasion: 120,000+ cycles Martindale/ ISO 5470-2

Tear Strength; 1.8 / 2.0 kg / ISO 17696:2004

Tensile Strength: 60 / 50 kg/cm / ISO 17706:2003

Breaking Strength: 20 / 15% / ISO 17706:2003

Water Permeability: 0% / ISO 17702: 2003

Colorfastness

UV Resistance: 3 (Blue Scale) / ISO105-B02:1999

Crocking Dry: ISO 17700:2004

Crocking Wet: ISO 4 / ISO 3 / ISO 4920:1981

Flammability

Cigarette: Pass /BS5852:2006

Cal-117: Pass
